Demonstration Sites

These publicly available, interactive demonstration resources are useful for learning about Shibboleth and demonstrating its use to new communities. Each relies on a functional deployment.

- [SWITCHaai](#): The [Swiss Education & Research Network](#) has prepared an excellent [step-by-step demo](#) with pictures and instructions. Highly recommended.
- [TestShib](#): Internet2 sponsored ZERO trust testing and demonstration facility suitable for testing and evaluating the Shibboleth software.
