

Join Now

This is **NOT** a registration form to use the software. Unless you are offering to help fund the project and the software's future development, you need not submit this form.

Again, if you are not offering money, please do **NOT** use this form. This is not how you obtain the Shibboleth software, nor does it involve getting access to any resources or services that happen to mention the use of Shibboleth as an access method. That's not what we do.

While Shibboleth is open-source software that may be used by anyone, by becoming a member of the Shibboleth Consortium you will directly help fund maintenance and continued development of the software, standardisation efforts, as well as provision of user support. You will also help the Shibboleth Consortium add more of the features requested by the community, while being able to influence direction and priorities.

If you are interested in joining the Shibboleth Consortium please complete the form below and we'll contact you within two business days. The actual membership application, for review, can be found [here](#).

If you are interested in donating to the Shibboleth Consortium, but not becoming a member, please use the [Shibboleth Donation Form](#)

Additional Comments

If you are not logged in, you will be asked to provide a CAPTCHA response below for spam prevention. Note the word it asks for may not be an actual English word. Unfortunately Atlassian does not provide an accessible CAPTCHA implementation so please feel free to simply contact us at "contact at shibboleth.net" if necessary.
