

# Standards Center Home

Welcome to the Shibboleth Standards Center.

Here you can find:

- Pointers to external standards work the Shibboleth project is involved with.
- Details of Shibboleth "project standards": specifications which typically outlast a single Shibboleth product version and which are intended for implementation by software interoperating with Shibboleth products.

Standards hosted here:

- [SAML 2.0 Metadata Extensions for Shibboleth](#)
